- To qualify to take Concurrent Enrollment courses, a student may need to complete prerequisites, which may include an introductory course completion or submission of ACT scores.
- A student must be enrolled in the course the entire term (semester or year) and receive a final grade of “C” or higher.
- Students are required to complete a Concurrent Enrollment application for each course that they enroll. This application includes student and legal parent/guardian consent to fulfill course requirements.
- Qualified students will register for the College Opportunity Fund (COF) stipend and understand that credits earned will be deducted from the COF lifetime account of 145 credit hours with the exception of basic skills credits.
